

ULTRAVIOLET STERILIZER

Jarvis Ultraviolet Knife Sterilizer GS-1

JARVIS®

Product Description:

Jarvis India supplies UV knife Sterilizer for superior sterilization compared to other methods or products using acrylic knife holder to secure the knives. Our exclusive non-filtering clear slotted knife holder and special mirrored interior walls eliminate shadows on knife surfaces within the cabinet that could prevent complete sterilization.

Features:

- Material used Stainless Steel AISI304 for outer body, good for use in wet area.
- Sterilization of knives using UV rays (Ultraviolet Light, wave length 256 nm).
- Smoked Plexiglas door with UV protection.
- Replaceable UV lamp 20 W with >5000 hours life.
- Auto switch Off/On while opening and closing the door.
- Clear acrylic knife stand with 8+2 (knives+sharpeners) capacity.
